***Our Mission: To tell the stories about Tulare County's People, Events, Issues and Places.***

We live in a wonderful part of the world and there are so many stories to be told. By producing these local shows, and broadcasting them on the Internet, we're putting the spotlight on everything that's good about our county.

And doing so will actually help make this an even better place. Our shows will foster communication and good will throughout the county. They will help the people of all the county's cities and towns get to know each other better.

This is an exciting and wonderful Community Service Project. And there are even ways our volunteers can make some extra income! If you'd like to help, send an email to [Volunteer@TulareCountyTalkChannel.com](mailto:Volunteer@TulareCountyTalkChannel.com)
